General Instructions

- I. Objectives of the IDP:
 - i. Articulation of the Vision and Mission of the college.
 - ii. To carry out a needs assessment and based on wide consultations with stakeholders to identify the goals, priorities and commitments of the college that are aligned with the Vision and Mission.
 - iii. List the activities that would help in achieving the goals, clearly highlighting the milestones and timelines for them.
 - iv. Using a Resource Based View, identify resource gaps and action plans to ridge these gaps.
 - v. Develop annual activity plans that would help achieving the institution's goals. The milestones under each activity plan will also serve as a tool for monitoring the implementation of the IDP.
- II. The IDP will be prepared for a period of five years, and contain a description of measures that would ensure sustainability up-to the 10th year.
- III. The IDP will be a living document, evolving as the strategic plans are implemented and reviewed. The indicators and targets, however, will be agreed upon in an MOU between the Department of Higher Education and the college. These can only be amended with the Department's consent.
- IV. Data on any variable contained in any part of the IDP shall be drawn from the same source when it appears in any other part of the IDP.
- V. Steps for developing the IDP:
 - i. Identify the Coordinator(s) in charge of developing the IDP and assign responsibilities.
 - ii. Carry out the analysis to identify focus areas. Document the consultations held and the conclusions reached.
 - iii. Based on the above assessment, identify the goals, priorities and commitments of the college.
 - iv. Draft an initial version of the IDP highlighting the focus areas, goals and the milestones with the timelines.
 - v. Identify the activities required to achieve the goals stated in the IDP and incorporate them into annual activity plans.
 - vi. Share the initial draft of the IDP for comments and suggestions.
 - vii. Finalize the IDP, based on the comments received.
- VI. IDP implementation grants will be awarded based on a competitive selection process carried out by a committee appointed by the Department of Higher Education.
- VII. The college / institution will be responsible for reporting to the Department of Higher Education the details of IDP implementation and progress against targets, as per the timelines and formats prescribed by the Department and contained in the MOU.

Goals for the next 5 years

1 . Development of Institute as Quality Education Centre

- a. Establishment of e- library.**
- b. Up gradation of existing labs.**
- c. Extension of classrooms,
procurement books and Equipments .**

2. Improving the employability of students

- a. Providing skill oriented education /
training**
- b. Enhancing sports facilities**

3. Establishment of eco-friendly environment

Detailed Description of Goals

Goal 1:Development of Institute as Quality Education Centre:

Description:

Quality education refers for improvement of education through teaching and learning processes by providing better facilities in respective field with creation of favourable environment for teaching - learning. This can be done by providing best quality learning equipments, better collaboration with other institutions and with friendly environment.

SUB – GOAL :

- a. **Establishment of e- library**
- b. **Up gradation of existing labs**
- c. **Extension of classrooms, procurement books and Equipments .**

Description:

Govt. college jaisinghnagar is established in 1984 in most area of Madhya Pradesh Majority of students belongs to tribal community with poor communication skill Proposed for E Library made for improvement of communication skill among the tribal students of region. The college library has more than 3000 books but in present requirement and scenario more books and e-library is essential.

Required for E-Library

- 1- Extension of rooms for Library e-library.

2. Procurement of essential equipments

Goal 3: Establishment of eco-friendly environment

Description:

Solar energy is the best source of alternative energy. College spend a large amount for power utilisation. Utilisation of solar energy will reduce the power bills of college and money can be utilised for other developmental works of the college. The conservation and harvesting of water system will certainly upgrade the underground water level and thus fulfil the water requirement and its conservation also. The solar energy as well as harvesting of water will aid to maintain the eco-friendly environment of the campus.

(Sub-goals)

1. Procurement of required solar system
2. Maintenance of solar system
3. Conservation and harvesting of water system

IMPLEMENTATION PLAN

- (i) The implementation of the project will be done by stepwise activities mentioned above to achieve sub-goals and finally hitting major goals.
- (ii) The involving steps for stepwise implementation are as follows:
 - a) Renovation work in first year- involving students and staff — **leads to enhancing equity**
 - b) Procurement of articles/ equipments etc during first and second year - **leads to enhancing equity, access, excellence.**
 - c) Procurement of skill oriented equipments every year as per requirement with continuous monitoring- **leads to enhancing equity, access and excellence in the research.**
 - d) Procurements of books / journals for library every year to achieve goal- **leads to enhancing equity, access and excellence.**
 - e) Fixture of solar panels and equipments in the different blocks with proper monitoring and training to students - **leads to excellence.**
 - f) Development of language lab during first and second years- **leads to enhancing equity, access, excellence and employability by producing skilled human resource.**
 - g) Strengthening of career guidance and employment cell and Remedial Coaching Classes during first to Five years with proper monitoring and followed by its use for betterment of students— **leads to enhancing equity, access, excellence and employability by producing skilled human resource.** Thus, the above mentioned stepwise implementation of the project will assist and promote to achieve **Access, Equity, Excellence and Employability.**

MEASURES TO ENSURE SUSTAINABILITY BEYOND THE 5 YEAR PERIOD

Following measures would be adopted to ensure the sustainability beyond the plan periods:

1. To sustain all the goals it will be managed by the funds allocated by **Jan bhagidariSamiti** of the Institution.
2. Funds received from **state and central Govt.** time to time.

BRIDGING THE RESOURCE GAP

Following steps will be adopted to bridge the resource gap:

1. Funds from **JanbhagidariSamiti**
2. Funds from **State and Central Govt.**
